OUR NATURE UNSERE NATUR

TWO SKI RESORTS THAT CAN BE COMBINED PERFECTLY

On THE HIGHEST IN TIROL "higher is better" applies - from September to May, the snow secure Pitztal Glacier offers a variety of slopes for beginners and experts. From December to April, the range is extended by the Riffelsee cable cars, which are connected via the valley run. Together they form a spacious and scenically varied area of 68 kilometres of slopes.

FAMILY FUN IN THE SNOW

CHILDREN UP TO 8 YEARS FREE OF CHARGE

Why THE HIGHEST IN TIROL is the perfect area for your next family holiday? For example, children under the age of eight ski for free. In addition, the Pitztal Glacier & Riffelsee offers 68 kilometres of slopes for every ability level and is the ideal practice area for young and old. Beginners start at the T-bar lift in Mandarfen before they take the gondola lift up to Riffelsee. Perfectly groomed glacier slopes round off the offer. Pitztal Glacier & Riffelsee: two ski areas that can be perfectly combined.

Café 3440.

For all those who want to be amazed.

PITZTAL

Tirol's highest viewpoint

HIGHER IS BETTER

1,680 M - 3,440 M

Tyrol's highest glacier also offers perfect snow conditions away from the groomed slopes. Untracked gullies make freeriders' hearts beat higher. Renowned peaks invite you to go on ski tours - especially North Tyrol's highest mountain, the 3,774 m high Wildspitze. Cross-country skiers make their rounds on the high-altitude track in the glacier autumn. There is fun and action for young and old in the snow park. In the Family Cross you can get a taste of the cross sport, while on the Funslope - Ibex Slope you can try out all kinds of tricks. Budding racers can test their speed in the speed check.

At THE HIGHEST IN TIROL the real winter awaits you from September til May.
