## TERRAIN PARKS

Pre-ride, Re-ride, Freeride.

Prior to using Freestyle Terrain, you are responsible for familiarizing yourself with park features and etiquette. Obey all instructions, warnings and signs. Freestyle skills require maintaining control on the ground and in the air. Use of Freestyle Terrain exposes you to the risk of serious injury or death. Inverted aerials are not recommended. You assume the risk.

\*Helmets are mandatory in the Highest Level Terrain Park and recommended in all other parks and pipes.

## SAFETY

Know It, Respect It, Ride It.

▶ If you see an accident on the hill that requires first aid: make a cross with skis or lay a snowboard above the site. Report the location and type of injury to the nearest ski area employee.

▶ Whistler Blackcomb recommends **helmet usage** for skiing or riding.

▶ Watch for changing conditions—natural or man-made.

▶ Vehicles may be encountered on Whistler Blackcomb Mountains. Please slow down and give them a wide berth.

▶ Irresponsible, reckless, or discourteous skiing and riding on any part of the mountain may result in loss of lift access privileges.

▶ **Caution** snow immersion suffocation from deep snow or tree wells can be fatal. Always ride with a partner. Visit [deepsnowsafety.org](https://www.deepsnowsafety.org)

▶ Difficulty ratings are relative to each ski area. Skiers and riders should work their way up starting with the easiest run, regardless of their ability level.

▶ Signage and fencing are used to inform you of the presence of a potential obstacle or hazard. Be aware that some hazards are not marked, use caution at all times.

### Whistler Adaptive Ski and Snowboard Program

Our trained and certified instructors and assistants help those with both physical and cognitive disabilities access and enjoy the slopes of Whistler Blackcomb.

[whistleradaptive.com](https://www.whistleradaptive.com)

### Respect the Mountains

Skiing and riding beyond the area boundary may result in a lengthy hike, an overnight in the wilderness, and/or a potentially costly rescue. If you go, be prepared. Closed means closed. Violators will lose lift privileges.

### Respect Others

Respect Slow Zones. These are areas where children and beginners are most likely to be. There are no hits or jumps in this area.

### Respect Yourself

Know your limits. There is no disgrace in declining a descent there are a number of resources available to boost your safety knowledge and awareness.

Whistler and Blackcomb Mountains are equipped with RECCO® rescue technology.

## BACKCOUNTRY AND BC PARKS

### Garibaldi Provincial Park

Backcountry travel can be very hazardous and requires specialized equipment, training and experience. Do not travel into the backcountry if you are not qualified to do so.

For guests looking to explore the backcountry accessible from Whistler Blackcomb there are a number of resources available to boost your safety knowledge and awareness.
