This map is general and conceptual in nature. Refer to the degree-of-difficulty symbol for each trail's rating (green circle, blue square, black diamond). The orange color used on the mountain signage system signifies items of importance relating to terrain (E-Z Way Down, Freestyle Terrain, and Groomed Overnight symbols). The trail and lift designations on this map supersede any previous maps or brochures. This is a rendering only; actual conditions may vary.

WARNING: You assume all risk of personal injury, death or property damage related to participation in recreational activities at this ski area.

CAUTION: Deep snow or tree wells can expose you to the risk of snow immersion injuries or fatalities. Educate yourself on how to reduce the risks and **ALWAYS SKI OR RIDE WITH A PARTNER.**

WARNING: Skiing, snowboarding and other winter recreational activities involve inherent risks of injury and death. Trail conditions vary constantly because of weather changes and ski/snowboard use. Bare spots, stumps, ice, variations in terrain, moguls, forest growth, rocks and debris, lift towers, snowmaking and grooming equipment, and other natural and man-made obstacles and hazards may exist throughout the area. You must assume the risks of personal injury and death related to participation in recreational activities within this ski area. Violators of lift-and-run skiing may be prosecuted under Sec. 6531 of the California State Penal Code. It is unlawful for persons under the influence of an alcoholic beverage or any drug, or under the combined influence, to ski in a ski area (Sec. 12134, Placer County ordinance). Do not ski into "CLOSED" areas or beyond ski area boundaries; you may be prosecuted (CC 602Q) or held liable for the cost of search and rescue.

WARNING, RISK OF AVALANCHE: While snow safety and avalanche mitigation efforts help reduce the risk of avalanches, avalanches and snow slides may occur at ski areas, both inside and outside of the posted boundaries. Avalanches are an inherent risk of the sport due to the nature of snow and its application on steep, mountainous terrain. Become educated on how to reduce the risk of injury or death from avalanches through your own actions and awareness. Visit www.avalanche.org or contact Northstar California ski patrol for further information on the risks and prevention of avalanche-related injuries or death.

SKI PATROL: 530.562.3445

If found in closed terrain, you may be subject to legal prosecution AND the loss of skiing and riding privileges. Snowcats, snowmobiles, AND unmarked obstacles, may be encountered at any time. Non-lift access to ski area facilities such as uphill snowshoeing, hiking, or "skinning" is prohibited on Northstar California property.
